

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned about increasing the costs of my current telephone services.

Under the flat fee proposal you are considering, people such as myself who make few long distance calls would pay the same as people or businesses that make many calls.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the the USF flat-fee proposal.

Keep the USF Fair!

Sincerely,

Craig Dutcher
